

**Teachers! Looking for fun and free morning community outings this June?**

**Visit the Library!** This year, the Library would like to welcome classes of Kindergarten to Grade 3 students a special Library Tour. Your students will enjoy a makerspace and library program, learn about our Summer Reading Club and leave the Library with their very own Library card. We would be more than happy to incorporate your class curriculum within your visits!

Each group will be broken into three different stations, as follows! Only one age category can be chosen per outing.

**Schedule (Gr. 2-3)\*\***

- Library Tour and Scavenger Hunt (30 mins)

Students will learn about the Dewey Decimal System, about authors, and about new/interesting books to read! This activity will take place in the main section of the library.

- Maker Program (30 mins)

Teachers have the option to choose between Lego Creation Challenges (based on your curriculum unit) and exploring electricity with Snap Circuits. This activity will take place in the Children's Programming Room of the library.

- Robot Races (30 mins)

This portion will take place in the Library theatre or in an upstairs meeting room. Students will work together to develop code skills for our Library robots!

- Library Card Extravaganza (10-15 mins)

Students will receive their library cards and their summer reading club packages at the end of the day!

\*\*schedule subject to flexibility depending on bus arrivals/snack/stretch times.

For more information and booking your library field trip, please contact:

Tina Dolcetti,
